EDUCATION

M.S. Ramaiah Institute of Technology - B.E in Computer Science (CGPA - 9.39)
SRS PU College, Challakere - Pre-University (Percentage - 95.16%)
Adarsha Vidyalaya (RMSA), Challakere - SSLC (Percentage - 97.6%)

Nov 2022 – Present
Apr 2020 – May 2022
Jun 2015 – Mar 2020

WORK EXPERIENCE

Oracle

Software Developer Intern

Jan 2026 – Present

Hybrid, Bengaluru, Karnataka

- **REST API Testing** : Validated enterprise **REST APIs** in **Java Spring Boot Microservices** using **Swagger UI**, ensuring accurate request-response handling and backend functionality.
- **Backend Validation**: Utilized **PL/SQL** and **SQL Developer** to analyze data, identify validation issues, modify **Java** code, and verify fixes across application layers.
- **Quality Assurance**: Executed **Sanity Testing**, **Payload Testing**, and **Translation/Localization Testing** to validate **HTTP Status Codes**, multilingual support, and system consistency.
- **Frontend Development & Test Automation**: Completed **Oracle JET (OJET)** training for enterprise UI development, component-based architecture, and frontend integration. Researched **JUnit**, **Jasmine**, **Mocha**, and **Karma** to understand **Unit Testing**, test automation, and software quality assurance practices.
- **Agile & CI/CD**: Collaborated in an **Agile Environment**, contributing to debugging, software quality assurance, and gaining exposure to **CI/CD Pipelines**.

Bharat Electronics Limited (BEL)

Industrial Intern

Jul 2025 – Aug 2025

Bengaluru, Karnataka

- **Cloud-Native Architecture**: Designed and implemented a scalable application architecture using **Docker**, **Kubernetes (GKE)**, and **Google Cloud Platform (GCP)** to achieve high availability and resilience.
- **Backend Development**: Developed a **Node.js** Fibonacci API leveraging **Worker Threads** for parallel computation and improved performance under concurrent workloads.
- **Containerization & Orchestration**: Deployed and managed containerized applications using **Docker** and **Kubernetes**, implementing **Horizontal Pod Autoscaling (HPA)** and cluster autoscaling.
- **Performance Testing**: Conducted load and stress testing using **Apache JMeter** to evaluate application scalability, system stability, and autoscaling behavior.

PROJECTS

Leave Management System

- **Full-Stack Development, DevOps & Deployment**: Developed a responsive **Leave Management System** with **Role-Based Access Control (RBAC)** for applying, approving, and tracking leave requests. Implemented **Docker**-based containerization and automated **CI/CD Pipelines** using **GitHub Actions** to streamline build, testing, and deployment workflows. Deployed frontend on **Vercel** and backend services on **Render**, improving deployment reliability, release consistency, and development efficiency.

Multi-Model Real-Time Physiological Data Analysis

- **AI/ML, Data Processing & Analytics**: Designed and developed a real-time physiological monitoring system utilizing **EEG**, **Heart Rate Variability (HRV)**, and **Galvanic Skin Response (GSR)** data collected through CSV and manual inputs. Integrated multiple **Machine Learning Models** to process physiological signals, evaluate concentration levels, compare model performance, and generate insights into cognitive behavior, supporting research on improving student focus and academic performance.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, JavaScript, SQL, PL/SQL

Web & Application Development: Flutter, React.js, Node.js, Express.js, REST APIs, Spring Boot (Basics), Microservices Architecture (Exposure)

Testing & Quality Assurance: Swagger UI, Postman, Unit Testing, API Testing, Sanity Testing, Payload Testing, Localization Testing, JUnit, Jasmine, Mocha, Karma

Cloud, DevOps & Deployment: Docker, Kubernetes (GKE), Google Cloud Platform (GCP), CloudLab, FreeLab, CI/CD Pipelines, GitHub Actions, Vercel, Render, Git, GitHub

Database Technologies: MySQL, MongoDB, Oracle SQL Developer, SQL, PL/SQL,

Data Science & AI/ML: Scikit-learn, Google Colab, Data Analysis, Machine Learning Fundamentals

Tools & Technologies: Oracle JET (OJET), Apache JMeter, VS Code, LaTeX, Canva

Software Engineering Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Agile Methodology
